## DEATH.

On the 16th inst., at Vankough House, Blacksmith's Lane, Vankough, aged 70, formerly of Hongkong.

## The Daily Press.

HONGKONG, DECEMBER 23RD, 1890.

There will be a game of Polo at Happy Valley at 4.15 p.m. yesterday.

The delivery of the English mail was begun at 8 p.m. yesterday.

The French postman Pipot arrived at Nagasaki on the 16th inst., from Shanghai.

There were 2,567 visitors to the City Hall Museum last week of whom 100 were Europeans.

The Agents (Messrs. Mulchers & Co.) informed us that the Norddeutsche Lloyd steamer *Premessa*, carrying the German mail dated Berlin, 29th November, left Singapor for this port on Sunday at 6 p.m.

A post-steamer has recently been disengaged at Tobeon, Ishigaki, Iwagiri, Hakkaido, by Mr. Tamura of Sapporo. Experimental journeys will be made when the necessary sanction has been obtained.

A Reuter's telegram in the Singapore papers, dated London, 13th December, says that the P. & O. steamer *Nepent* stranded on Plymouth breakwater. The accident occurred during a dead fog; the cargo has been salvaged.

We would remind our readers of the performance of the "Old Corp" at the Theatre Royal this evening, with Sir William Macready in the title rôle. Judging from the success which attended the last performance, there ought to be a crowded house.

The Agents (Messrs. Butterfield & Swaine) inform us that the O.S.C. & S. Co.'s steamer *Leviathan*, from Liverpool, left Singapor on the afternoon of the 17th inst., and the steamer *Palmyra*, from London, on the morning of the 21st inst., both in this port.

Telegraphic intelligence was yesterday received by the local branch of the New Oriental Bank Corporation, Limited, that the usual half-yearly dividend at the rate of 6 per cent. per annum sum of income tax has been declared payable on the 1st January next.

A special telegram to the Japan Gazette dated New York, December 12, thus describes the prospects in the silk market there:—Silk market unsettled and values very difficult to make even at lower prices. No prospect for improved value. Holders are anxious.

The Japan Gazette says that sailing operations are proceeding at the news of the wreck of the Turkish man-of-war *Erzurum*, which had been run aground and sank with its crew. The others who went to their aid ate and were given up by the sea.The Straits Times of the 12th inst. says that information has been received from the British Consul at Hongkong that the P. & O. cargo steamer *Ascalon*, now (says the *Straits Times*) accepted retired pay. Colonel Anderson is fifty-one, so he could have remained, on the score of age, for seven years longer, but that would hardly have been sufficient to have ensured his promotion to the rank of major-general.

We have it acknowledged receipt, among other similar remittances of the New Year, of a capital sum calendar for 1891, and also a pocket calendar issued by the Phoenix Fire Office, and forwarded to us by the local agent (Messrs. Douglas Lapraik &amp; Co.). The desk and pocket calendar, originally issued by Mr. A. S. Watson &amp; Co., have since come to hand and fully retain their old reputation.

Colonel D. G. Anderson, who was placed on half-pay from the Northumbrian Regt. before the outbreak of the war, has now (says the *Straits Times*) accepted retired pay. Colonel Anderson is fifty-one, so he could have remained, on the score of age, for seven years longer, but that would hardly have been sufficient to have ensured his promotion to the rank of major-general.

A Chinese coolie in the employ of Lieutenant F. C. Vignoles, R.A., was charged at the Police Court yesterday morning, before Hon. H. E. Woodcock, with having beaten his master, Mr. G. B. Gurney, General-Governor of Hongkong, on the 18th instant, which had been carefully left by the complainant on his table. The evidence was not sufficient to prove the defendant's guilt, and His Worship gave him the benefit of the doubt.

The Free Press says—By the Mr. Peres, which arrived in Singapor on the 5th inst. from Pahang, a further consignment of samples from the rich strike recently come upon in Kelantan has been received. These weigh about half-a-hundredweight. While all the samples are good, the average is not up to the average of the richer samples last received, and tested with the result previously given.

The English Times says—The prospects of the rice crop would, all appear, be more favorable than was expected. The excessive drought in the latter half of September and in October and November did, it seems, injure the rice to a very great extent, and the most seriously affected tracts are said to be in the districts of Kedah, Penang, and Malacca, where a very small crop is expected. Exclusive of these and some other less affected tracts, it is thought the crop will be a good one. Latest news from up-country are more reassuring.

The Japan Gazette of the 13th December says—The scene of the Tokyo-maru's disaster has also been the scene of a shocking tragedy. We have reliable information that a Chinese steward was murdered there at the hands of a Japanese under the following circumstances. The steward, a native of the island of Sumatra, was under the charge of the murdered man. A Japanese endeavored to help himself, and the Chinese resisting, drew a knife and stabbed the man in the neck with fatal results. The master of course is now in the hands of the authorities.

In announcing that another barrister may shortly be expected in Bangkok, the Times says—We have for some time past endeavored to point out to these members of the public service that a barrister in Hongkong and Singapor is a man who can make a very fair income in Siam, where legal business is at present divided between a young English barrister and an American who is allowed to practice in the British Consulate as a pleader. These two gentlemen, it is rumored, make between them from \$1,500 to \$2,000 a month.

The Japan Gazette says—In the course of a speech in favor of opening Kusshiro, in the Hokkaido, as a special export port, Mr. Matsudaira, Vice-Minister of Finance, said that the amount of sugar for Hakodate to America last year amounted to \$24,927,800. It is, however, Kusshiro was opened, yet \$50,000 would be saved in freight and storage charges alone, supposing that the above quantity only were exported, and that the amount of sugar for America was to be obtained from the British Colonies. The amount of sugar which was sent up by the railroads of the country which the jury had to consider was what pecuniary loss was sustained by his death. Evidence would be brought to show that the deceased—who was only 16 years of age and had only been at work for a year—contributed to average earnings of \$35 a month, and that he had no other means of support, and that he might not continue to contribute that amount or any at all, but the jury would have to consider reasonable probability of his doing so, and even of his increasing his contribution. A sum of \$350 was claimed by the amount which the plaintiff would have paid for obtaining the sugar from America, and the amount of duty which was exacted upon her by the law of China and the evasion of which would entail a penalty.

His Lordship said the action was brought under the provisions of Ordinance 8 of 1889, which extended Lord Campbell's Act to this colony. The action was not brought because of the deceased for any sufferings which had been incurred by him, but it was brought on behalf of the plaintiff, and the plaintiff was entitled to sue for damages.

It will be seen by the number of garrison officers in the above, General Barker's has been very kind in the matter, and it is chiefly owing to his courtesy that the colony has been able to carry out certain works in the grounds of the Civil Hospital.

Mr. Hastings said the action was brought under the provisions of Ordinance 8 of 1889, which extended Lord Campbell's Act to this colony. The action was not brought because of the deceased for any sufferings which had been incurred by him, but it was brought on behalf of the plaintiff, and the plaintiff was entitled to sue for damages.
